

## THE BASEBALL CAP WAS ORIGINALLY DEVELOPED FOR MEN, BUT WE HAVE

# PERFECTED IT FOR WOMEN.

At Infinity Headwear, we have been designing headwear since 1996. We only source from sustainable, socially responsible certified factories.

Ten years ago we realized there was a gap in the retail market for women's baseball caps. To date we have shipped over 50 million women's baseball caps to some of the country's largest retailers.

We are excited to bring that winning formula to the promotional products industry.

### How We've Made it Different

Women are more than half of the population and they should not have to wear a man's cap. They deserve to have one engineered just for her, and that's what we've done.

## We've paid attention to the details:

- 1 Evolve<sup>™</sup> Patent pending concealable ponytail opening.
- 2 Elude<sup>™</sup> Patent pending makeup resistant, wicking and breathable sweatband.
- **3** Smaller, lightweight visors.
- **4** Perfectly sized for a woman's head.
- **5** Easy, snag-free closures.

Our **exclusive patent-pending** makeup resistant sweatband is revolutionary for women's headwear. It solves the problem that most women face with wearing a cap - their makeup staining the sweatband. With this sweatband, the makeup wipes right off so that the sweatband isn't left with a permanent stain.

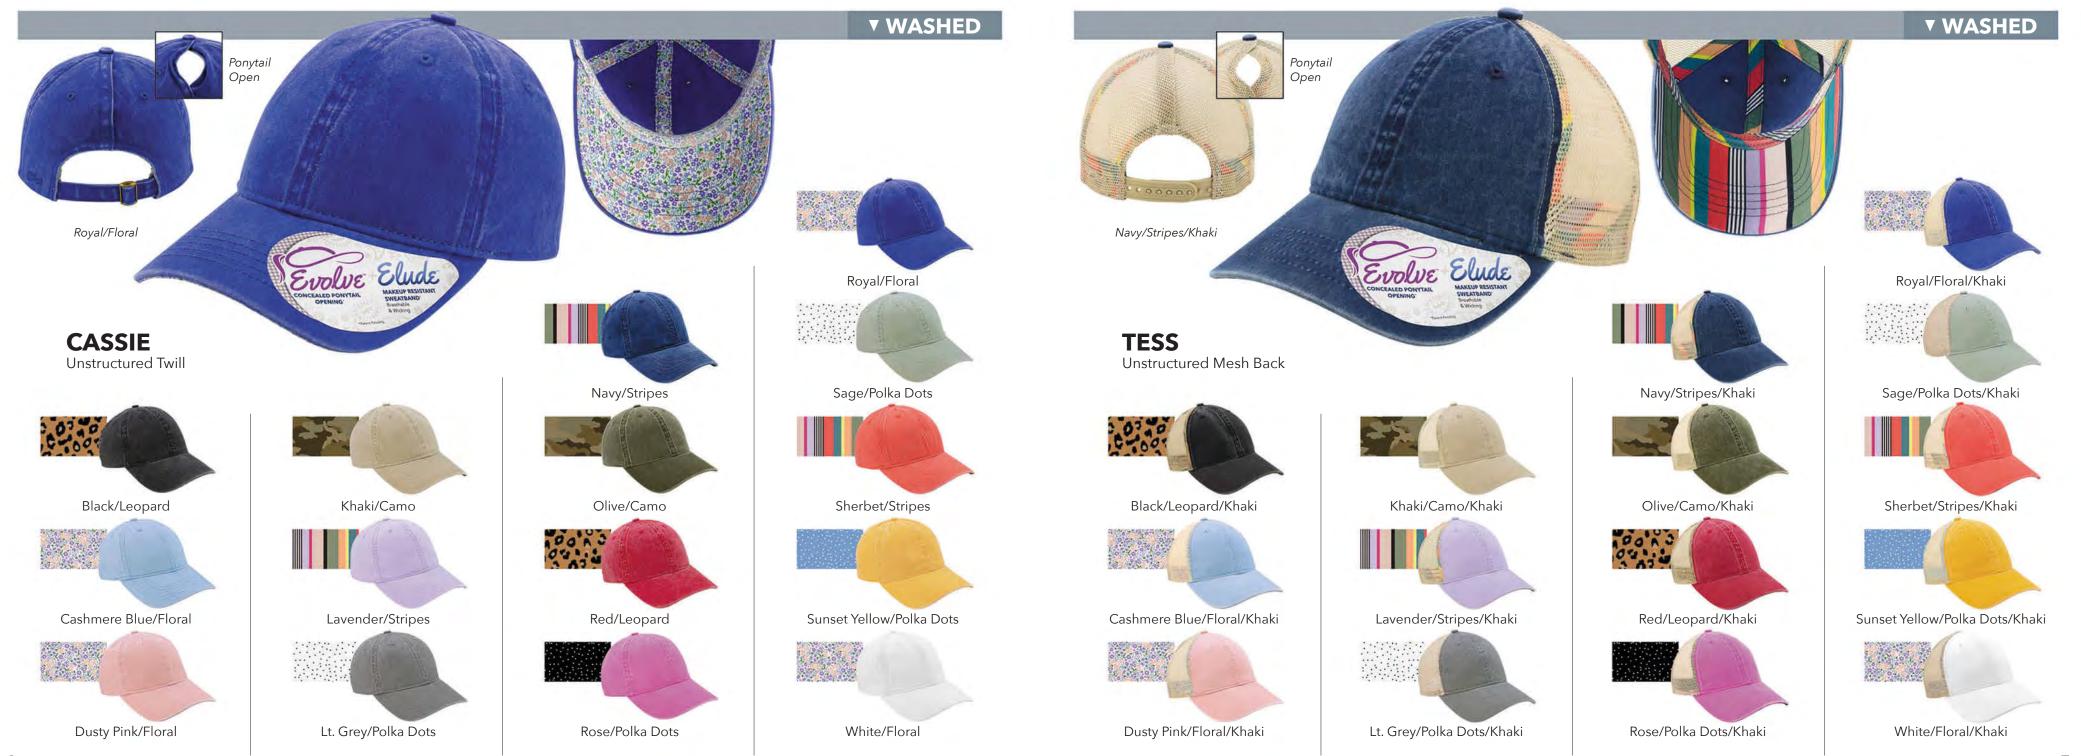

It has been lab tested and approved for stain resistance, breathability and wicking, making it the ultimate performance in women's headwear.

### LAB RESULTS

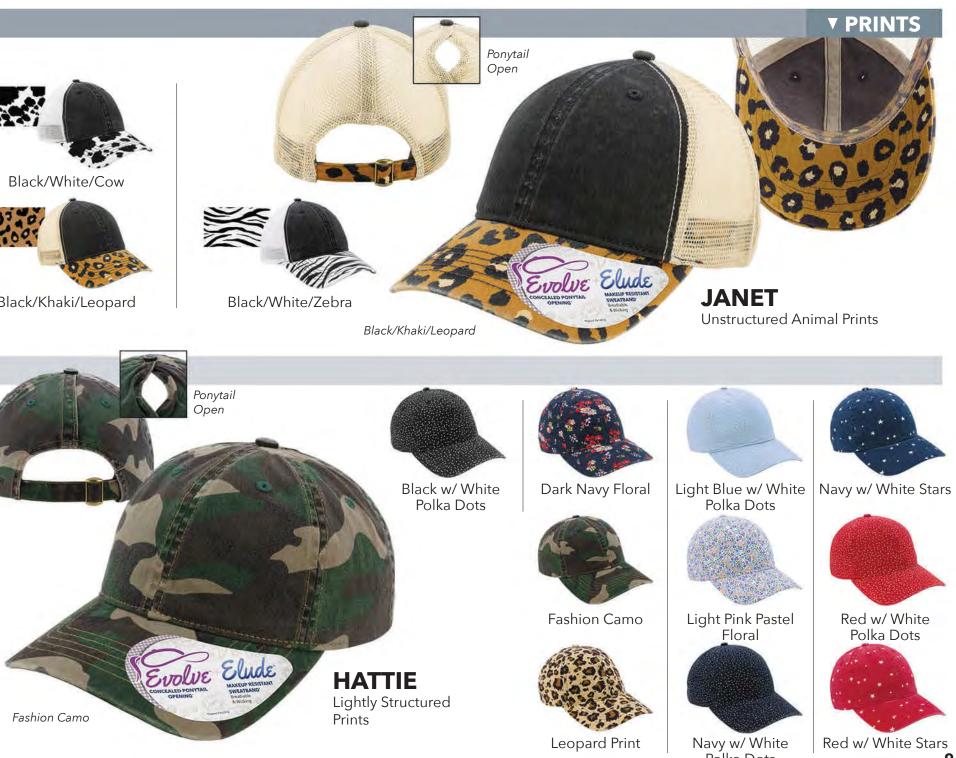

Wicking: PASS Stain Resistant: PASS Breathable: PASS

> There are a lot of ponytail caps out there, but our **patent-pending design** is unique. The hidden ponytail design was created to offer the option of a ponytail opening for a secure high ponytail or to look like a regular cap when hair isn't worn up. There is no unsightly gap or awkward opening when the hair is worn down. It is versatile, just the way women want.
